MAKE A LASTING IMPRESSION

BRILLIANTLY STYLISH. Elegant and more dynamic with a lower roofline, steeper windscreen angle, flared wheel arches and a sleek front grill intercepting its swept-back headlamps, the Note's sharpened silhouette has a lot more scope.

A BROAD SPECTRUM DESIGNER VISION

IN FOCUS. The minute you set your eyes on the dash, it's clear. From the ambient lighting on the multi-information display, to the blue-lit data on the combimeter, information stands out in Note.

ECO-WATCH. The combimeter delivers all your driving data in high definition and includes two new ecometers that measure throttle efficiency and fuel economy in real time.

I-TOUCH. Controlling Nissan Note is effortless thanks to its astute steering wheel commands and the ingenious i-Key*. Open the door, start the engine and take off - all at the touch of a button.

RELAX & ENJOY. Slide the rear seats back to create more legroom and bask in the light of the glassroof.

A CERTAIN ELITE. With sporty new front and rear bumpers, a roof spoiler, side sills and unique Diamond-cut 16" alloy wheels, Note is already a cut above the rest. Add black bezel headlamps, an impressive black front grill and privacy glass and it's a winner that will turn heads.

A DEFINITIVE EDGE. Intensify Note's inherent dynamism by selecting a Style grade, tailor-made to highlight its distinctive design.

**DYNAMIC STYLE GRADES
HEIGHTEN SENSES**

DIG-S ENGINE. Offering the eco performance of a diesel engine without the price tag, Note's Pure Drive 1.2L 98 PS supercharged petrol engine with manual transmission incorporates innovative technologies that reduce the amount of power lost through heat, pumping and friction losses, improving fuel consumption through optimised energy management.

ECONOMICAL ENGINES and class leading technology designed to generate excitement whilst minimising costs. Lightweight & clean cut. Note produces low CO₂ emissions (from 90 g/km*) which has an impact on both the environment and your wallet.

*Based on 1.5dCi engine

ECO METER. Note's crystal clear display features two new eco indicators, an eco-pedal dial that rates throttle impact and an eco-drive indicator that evaluates efficiency. Check your eco-score after each trip.

ECO MODE BUTTON. Instantly transform your combimeter into a real guardian of consumption (and therefore CO₂ emissions) with this little button.

START/ STOP SYSTEM FOR ALL. Standard on all models, your Start/Stop ignition system reduces pollution and your consumptions in city traffic. The engine automatically turns off when your Note is at a standstill (in traffic jams for example) to save on energy and emissions and then smoothly restarts as soon as you prepare to move away.

ENGINE VIEW. Its compact, lightweight 1.2L DIG-S 98 PS engine with super-charged technology achieves excellent economy and low emissions. 1.2L DIG-S engines come with dynamic suspension and 16" alloy wheels.

PURE POWER

MAXIMUM PLEASURE. With CO₂ emissions as low as 90 g/km*, Note is light on the environment as well as your wallet. Its economic engine and class leading technology generate excitement while minimising costs.

ENGINE/ TRANSMISSION	SIZE (L)	OUTPUT (ps)	TORQUE (nm)	CO ₂ EMISSIONS (g/km)	FUEL CONSUMPTION COMBINED (mpg)

NISSAN AVM 4 CAMERAS. 360° VISION.

DELUXE PARKING AID. Nissan's advanced Around View Monitor (AVM) delivers a bird's eye view of your car and its surroundings directly to your 5.8" touch screen. It makes reversing and parallel parking so much simpler and stress-free.

BIRD'S EYE VIEW. Using 4 separate cameras, AVM displays an image of your vehicle from above. All you have to do is position your Note within the guidelines and enjoy a perfect parking moment.

COMPLETE THE PICTURE. Located under your driver's side mirror, this camera helps round out your virtual 360° birds-eye view whether you're in drive or reverse.

DON'T SCRATCH YOUR WHEELS. In drive or reverse, you can push the camera button to switch out the overhead for a side view. A great help for seeing how close you are to the kerb.

LOOK OUT BELOW. In reverse, the display helps you see what's directly behind you, while the overhead view helps with shorter objects otherwise hidden below your window.

NISSAN SAFETY SHIELD TECHNOLOGIES LOOK OUT FOR YOU

ANTICIPATE THE UNEXPECTED. Appearing for the first time in Note, Nissan's Safety Shield technology brings you and your passengers outstanding protection. Using vision captured by the rear wide view AVM camera, three advanced safety systems work together to warn you of any potential dangers.

SIMPLY VISIONARY. You can count on your Safety Shield whatever the weather. The rear view camera even includes a wash and blow dry function to keep the lens crystal clear at all times.

BLIND SPOT WARNING.** What you can't see, the Blind Spot Warning System can. If there's a vehicle in the blind spot area on either side of Note, a discreet light will illuminate the wing mirror to let you know. If you're indicating to change lanes and a vehicle is dangerously close, that same light will start flashing and you'll hear a warning signal too.

LANE DEPARTURE WARNING.** Concentrate... no nodding off! The Lane Departure Warning System will warn you if you start drifting out of lane. It can detect the faintest of road markings and unless you're indicating, it'll quickly remind you to straighten up. Cleverly, it automatically adjusts its sensitivity on rural roads to allow for the different driving style required.

MOVING OBJECT DETECTION.** Meet your digital co-pilot. The Moving Object Detection function lets you know if anything is approaching the path of your reversing Note. While conventional parking aids warn you of objects in the way, it gives you an audible and visual alert should anything or anyone be moving behind the car, like a small child for example. Very reassuring.

SECURITY MEASURES

RELAX. It's difficult to go wrong with Nissan Note, but 6 airbags as well as ABS, ESP/TCS are standard on all models just to be extra sure.

TPMS. The Tyre Pressure Monitoring System warns you if your tyres are low in pressure. Keeping them at the right level is not just safer, it keeps your fuel consumption down too.

6 AIRBAGS. Front, side and curtain airbags offer maximum protection to all passengers at all times.

ABS. If you ever have to push down hard on the brakes, the anti-lock brake system limits wheel lock up to help you maintain control and stability.

ESP/TCS. The 9th generation Bosch Electronic Stability Program controls brake pressure to individual wheels and reduces engine torque to maximise

traction and help stabilise the vehicle's direction if tyre adhesion limits are accidentally exceeded.

FLEXIBLE IDEAS

ANYTHING GOES. Bikes, bags and any other bulky goods: they're all welcome in Note. The seats fold down in four different ways and the Flexiboard makes the boot storage area even more versatile.

FLEXIBOARD*

Light enough to lift with one hand, the Flexiboard allows you to create different luggage compartments quickly and easily. It's even got a waterproof side so you can keep muddy kit separate too. Place the Flexiboard in the upper position to create a secure space below. Split it in two to create a small compartment behind the rear seats and a taller one at the tailgate. Put both parts on the boot floor to create one large space.

FOLDING SEATS. Make more room. At the flick of a switch you can fold the seats down to create space of various shapes and size. The rear seats split 60/40 and with the front passenger seat fully forward, you can pile in items up to 1.7 m long.

*Specification varies by grade. Please contact your local dealer for more information.

Optional equipment. This price list features a selection from the full range of optional equipment, be they standard, dealer fit or factory options.

For further information and details of the full range, please contact your local Authorised Nissan Dealer.

Nissan's commitment to you includes all of the following benefits – some of which may be the reasons why you chose your new Nissan in the first place:

Three-year/60,000 miles manufacturer's warranty – Nissan's comprehensive warranty provides cover for your new Nissan from defects in materials or workmanship. Your vehicle is covered in all European Countries where Authorised Nissan Dealers are located. If your vehicle becomes inoperative due to a warrantable defect a towing service, when necessary, to the Authorised Nissan Dealer is covered. If a warrantable defect abroad takes more than six hours to repair, the Touring Assistance Programme will pay for a hotel room or rental car up to a certain maximum. The paint warranty covers painted body parts (excluding the underbody) for three years regardless of mileage driven. For further details please contact your local Authorised Nissan Dealer.

LEAF – Nissan LEAF offers a 5-year / 60,000 mile warranty on all EV dedicated components, including the lithium-ion battery, and a 3-year / 60,000 mile warranty on standard components. The Nissan LEAF lithium-ion battery state of health guarantee protects against battery capacity loss (less than 9 bars out of 12) as shown on LEAF's capacity gauge for a period of 5 years / 60,000 miles. For LEAF flex customers, the battery state of health guarantee applies for the duration of the battery lease.

NV200 Combi - New Vehicle Warranty is issued by Nissan International SA is valid for 3 years from the warranty start date or 60,000 miles, whichever comes first. In addition, for each new NV200 Combi sold by an authorised UK Nissan dealer, Nissan Motor (GB) Limited (NMGB) will issue an extension to the New Vehicle Warranty. This warranty extension will cover your vehicle from 60,000 miles up to 100,000 miles or 3 years from the warranty start date, whichever comes first. Please note that audio and navigation units will not be covered by the warranty extension.
